

AXIS M1114-E Network Camera

Outdoor-ready, compact and adaptable HDTV camera

AXIS M1114-E with CS-mounted, varifocal DC-iris lens provides excellent image quality without motion blur in 1 megapixel/HDTV resolution, where progressive scan provides crisp and clear images even in low-light areas. It offers multiple H.264 and Motion JPEG streams that can be individually optimized for bandwidth and storage efficiency. The pixel counter helps verifying that the pixel resolution of an object or face fulfills regulatory or specific customer requirements. Installation outdoors is easy thanks to Power over Ethernet support, a removable sunshield and a wall bracket. The casing is made of UV resistant polymer and the operating temperature ranges from -40 °C to 50 °C (-40 °F to 122 °F).

- > HDTV 720p/1 MP quality
- > Outdoor-ready, IP66 rating
- > Varifocal DC-iris lens
- > Power over Ethernet
- > Pixel counter
