AXIS T8310 Video Surveillance Control Board

Modular control board for professional camera and video management

AXIS T8310 Video Surveillance Control Board is a modular system with three separate joystick, keypad and jog dial units. AXIS T8311 Video Surveillance Joystick gives responsive and accurate control of all Axis PTZ network cameras. With AXIS T8312 Video Surveillance Keypad the user quickly navigates between workspaces, cameras, views and PTZ presets. AXIS T8313 Video Surveillance Jog Dial is used for navigating through recorded video. The units are easy to install via the USB interface. The modular system allows users to choose a simple solution (joystick only), or a complete solution (all three modules) for both camera and video management.

> Modular system

> Accurate control of PTZ cameras

> Professional design

> Easy to install

General specifications — all models
